

2019 Medical Waiver Request Criteria

Here are the steps to follow, in order to obtain a Medical Waiver for players who have been injured and unable to play in ½ of the team's games during the regular season. This information must be completed and signed by the league president and.

1. A letter from the Doctor who treated the player, stating the date treatment was started and the date the player was released to play. This letter should also contain the doctors name, contact information etc. so that we can verify the authenticity of this statement.
2. Your regular season schedule, showing all games played during the regular season
3. District Commissioner will then review this information to determine the number of games the player could have played in, either prior to the injury or after being released by the doctor to play.
4. District Commissioner will then report to the league president the number of games the player needs to play to be eligible. (Normally ½ of the games he was eligible to play in prior to or after the injury)
